OBJECTIVE

Full-Stack Engineer with nearly 3 years of experience in the software industry. Proven ability to work independently, moving from planning to development in fast-paced environments. Specialist in **.NET**, **React**, and **Angular**, with deep experience in automating complex enterprise workflows and managing cloud-integrated databases.

TECHNICAL SKILLS

Languages: C#, SQL. TypeScript
Backend: ASP.NET Core, Web API, Entity Framework Core, Dapper
Frontend: React, TypeScript, Vite, Remix, Micro-Frontend, HTML, CSS
Databases: Snowflake, Microsoft SQL Server, PostgreSQL
Tools: SSMS, Git, Postman
Cloud: Azure Blob storage

WORK EXPERIENCE

Software Engineer
Ivoyant Systems Pvt. Ltd. | Bangalore, India
July 2023 – Present

- Consultancy & HCM: Served as a consultant on a large-scale global Human Capital Management (HCM) and payroll platform.
- Automation: Streamlined HR reporting by developing automated stored procedures in SQL Server and Snowflake.
- System Integration: Built integration layers using low-code platforms to synchronize data with client APIs.

Software Engineer Trainee
Ivoyant Systems Pvt. Ltd. | Bangalore, India
Feb 2023 – June 2023

- Full-Cycle Development: Actively involved in the initial planning and development phases of project lifecycles

- Cross-Platform Engineering: Developed front-end components in Angular and back-end services in NET without formal training, demonstrating high technical adaptability
- Self-Starter Contribution: Operated independently to meet project milestones, bridging the gap between design requirements and technical execution.

Full Stack Developer Training - Skill House
Aykan | Mangalore, India
June 2022 – Sep 2022

- Learned and developed web pages and backend databased to store, collect and organize data efficiently.
